

ASSESSMENT OF TAYLOR COUNTY SCHOOLS POLICY 8510 – WELLNESS

An assessment of Taylor County Schools Policy 8510 was completed by the school principals on September 10, 2013. The assessment tool was developed by Mary Tucker, Director of Child Nutrition Services. There were 11 categories with varying numbers of subcategories. Each subcategory was assessed using a rating scale of 2 (fully implemented), 1 (partially implemented) or 0 (needs to be implemented). Three goals for the county wellness committee were selected based on responses to the survey.

Goal 1 – Each school health council will meet 2 times/year. The meeting may be held in conjunction with the Local School Improvement Council.

Goal 2 – Classroom teachers will provide short physical activity breaks between lessons or classes.

Goal 3 – School newsletters will contain nutrition and physical activity information for parents. This goal may be accomplished by posting this information on the school's website.
